

Doctors and Eye Specialists Agree That Bon-Opto Strengthens Eyesight 50% In a Week's Time In Many Instances

A Free Prescription You Can Have Filled and Use at Home.

Boston, Mass.—Victims of eye strain and other eye weaknesses, and those who want glasses, will be glad to know that Doctors and Eye Specialists now agree there is real hope and help for them. Many whose eyes were failing say they have had their eyes restored and many who once wore glasses say they have thrown them away. One man says, after using it: "I was almost blind. Could not see to read at all. Now I can read everything without my glasses, and my eyes do not hurt any more. At night they would pain dreadfully. Now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can read even fine print without glasses." Another who used it says: "I was bothered with eye strain caused by overworked, tired eyes which induced severe headaches. I have worn glasses for several years, both for distance and work, and without them I could not read my own name on an envelope or the typewriting on the machine before me. I can now do both without glasses. I can count the fluttering leaves of the tree across the street, now, which for several years have looked like a dim green blur to me. I cannot express my joy at what it has done for me."

It is believed that thousands who wear glasses can now discard them in a reasonable time, and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Dr. Beck, an eye specialist of nearly twenty years practice, says: "A patient came to me with suffering from Elephantias Marginalis with all the concomitant symptoms, as morning agglutination of the lids, chronic conjunctivitis and epiphora. Her eyes when not congested had the dull, suffused expression common to such cases. Having run out of her medicine a friend suggested Bon-Opto. She used this treatment and not only overcame her distressing condition, but strange and amazing as it may seem, so strengthened her eyesight that she was able to dispense with her glasses and her headache and neuralgia left her. In this instance I should say her eyesight was improved 100%. I have since verified the efficacy of this treatment in a number of cases and have seen the eyesight improve from 25 to 75 per cent in a remarkably short time. I can say it works more quickly than any other remedy I have prescribed for the eyes."

Dr. Smith, an oculist of wide experience, says: "I have treated in private practice a number of serious ophthalmic diseases with Bon-Opto and am able to report ultimate recovery in both acute and chronic cases. Mr. B. came to my office suffering with an infected eye. The condition was so serious that an operation for enucleation seemed imperative. Before resorting to the operation I treated with Bon-Opto and in 24 hours the secretion had lessened, inflammatory symptoms had subsided, and in seven days the eye was cured and retained its normal vision. Another case of extreme convergent strabismus (cross eyes) escaped the surgeon's knife by the timely use of your collyrium. The tightened external muscles yielded to the soothing and anodyne effects of Bon-Opto. I always instill Bon-Opto after removal of foreign bodies and apply it locally to all burns, ulcers and spots on the eyeball or the lids for its therapeutic effect, clearing the lids of secretions and acting as a tonic for the eyeball itself. The action is rendered more acute, hence the number of cases of discarded glasses."

Dr. Conner says: "My eyes were in bad condition owing to the severe strain arising from protracted microscopic research work. Bon-Opto used according to directions rendered a surprising service. I found my eyes remarkably strengthened, so much so I have put aside my glasses without discomfort. Several of my colleagues have also used it and we are agreed as to its results. In a few days, under my observation, the eyes of an astigmatic case were so improved that glasses have been discarded by the patient."

Eye troubles of many descriptions may be wonderfully benefited by the use of Bon-Opto and if you want to strengthen your eyes, go to any drug store and get a bottle of Bon-Opto tablets. Drop one Bon-Opto tablet in a fourth of a glass of water and let it dissolve. With this liquid bathe the eyes two to four times daily. You should notice your eyes clear up perceptibly right from the start, and inflammation and redness will quickly disappear. If your eyes bother you even a little it is your duty to take steps to relieve them now before it is too late. Many hopelessly blind might have saved their sight if they had cared for their eyes in time.

Note: A city physician to whom the above article was submitted, said: "Yes, Bon-Opto is a remarkable remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them. I have used it very successfully in my own practice on patients whose eyes were strained through overwork or night glasses. I can highly recommend it for cases of weak, watery, itching, smarting, burning eyes, red line blurred vision or for eyes inflamed from exposure to smoke, dust or wind. It is one of the very few preparations I feel should be kept on hand for regular use in almost every family." Bon-Opto is not a potent medicine or secret remedy. It is an ancient preparation, one formerly being given in the package. The manufacturers guarantee it to strengthen eyesight 50 per cent in one week's time in many instances. It is distributed by all good druggists in this city, including F. G. Russell and all other wide-awake drug counters.—Adv.

HOW TO BE RID OF CHRONIC DANDRUFF

The only way to get rid of disgusting, untidy dandruff is to correct its cause. Shampooing merely cleanses the scalp for a few days, then the scales form again as thick as ever.

To destroy the dandruff germ and get rid of the dandruff for good, part the hair and apply a little of the genuine Parisian Sage directly on the bare scalp and rub it in until absorbed. You will surely be amazed at the result of even one application, for your hair and scalp will look and feel 100 per cent better. Only a few days' massage with Parisian Sage should be needed to destroy the germs that cause dandruff to form. The scalp becomes healthy, the hair will grow better, show more life and vitality and you should no longer be troubled by dandruff. Faded, dull or lifeless hair is quickly restored to beauty by this simple process. Parisian Sage can be obtained from the Red Cross Pharmacy and druggists everywhere. It is not expensive.—Adv.

The "Millionaire Regiment" and Fatimas

Last summer while New York City's famous 7th Regiment (sometimes called the "Millionaire Regiment") was encamped on the border at McAllen, Texas, a record was kept of all cigarettes sold.

Fatima's sales averaged 42,680 per month; the next most popular cigarette averaged 17,600.

This big preference for Fatimas is simply one of the many indications that more and more men,

every day, are finding that Fatima's delicately balanced Turkish blend is not only more pleasing in taste, but is far more comfortable too.

More comfort while you're smoking and also afterwards. For, even though you may smoke more than usual, Fatimas never remind you of it. They're a sensible smoke.

The next package you buy—get Fatimas.
